Experience

Founding Product Designer @ Bolt

Nov 2025 - Present

First and only designer at Bolt, leading end-to-end product design for Bolt SuperApp serving 2M+ users. Built product experiences across banking, payments, crypto, rewards, and growth. Established the design system and AI-powered workflows for a lean team.

Design Manager @ JPMorgan Chase

Feb 2023 - Nov 2025

Led design for payment solutions, managing team delivery, improving UX quality, and aligning strategy across engineering and business stakeholders.

Staff Designer → Design Manager @ Affirm

Mar 2022 - Feb 2023 (1 yr)

Led the vision, roadmap, and strategy of the Affirm's Design System. Mentored team members on design system best practices, contributing, and governance.

Design Manager @ Wish

Oct 2020 - Mar 2022 (1 yr 7 mos)

Part of the design leadership team at Wish, helping product teams deliver high-performing eCommerce experiences across platforms and customer journeys.

Product Design Lead @ iManage

Sep 2016 - Oct 2020 (4 yrs 1 mo)

Led a small team of designers to deliver UX solutions for multiple projects, including an enhanced security document management system, admin panel, and threat analytics platform, while also creating and maintaining the iManage Design System (ICE).
